

CHECKLIST · ENTERPRISE

Moving to Enterprise: Your First 90 Days (2026)

What newcomers need to do in order, the deadlines, and where each item is done. Print it and tick it off.

SHORT ANSWER

The first ten days are federal: **if you are subject to address reporting, notify USCIS within 10 days**, and if you have a case in immigration court, notify the court **within 5 days**. The trap here comes from the envelope: **the name of this town probably does not appear on your mail at all**. Your mailing address says Las Vegas, the sign in your neighborhood says something else, and your official settlement name is neither. **What triggers the obligation is not the envelope but the move itself**. The first week is about the household, and here there are **five separate providers**: electricity from one company, natural gas from another, water from a district, sewer from a second district, and refuse from a franchised company. **But you open nothing for two of them**: on sewer and refuse the responsible party is the property owner from the start. In the same week learn two things: **the irrigation days assigned to this address**, and **which service comes through which door**. The first is money: the irrigation rule here is permanent and the penalty is tiered.

First 10 days

TASK	WHERE OR HOW
☐ Report your address to USCIS	As a general rule required for most non-citizens including green card holders, within 10 days ; A and G visa holders and visitors arriving under the visa waiver are excepted. uscis.gov/addresschange
☐ Update the address on every pending case separately	Filing AR-11 does not by itself change the address on a pending application; enter each receipt number
☐ If you have an immigration court case	Within 5 days on Form EOIR-33/IC: respondentaccess.eoir.justice.gov . The only court in the state is in the county seat
☐ If you have a reporting obligation	Report the address through portal.ice.gov as well; if you hold an appointment notice, the address on that notice controls
☐ If you hold the status-neutral driving card there is a separate task	The address change for that card is made in person , so it needs an appointment, and there is no branch inside the town . The federal notice does not replace it

TASK	WHERE OR HOW
☐ Do not mistake mail forwarding for a notification	The change of address you give the postal service does not update agency records, and giving your address to a state or county agency does not satisfy the federal obligation

YOUR ADDRESS CARRIES THREE NAMES, AND IT IS CLEAR WHICH ONE GOES ON THE FORM

- **The name on the envelope:** for mail delivery, and for most households here it says **Las Vegas, NV**. It shows no jurisdiction: the City of Las Vegas does not serve this address.
- **The name on the neighborhood sign:** the names of the master-planned developments. Useful for finding your way and for talking to the homeowners association; **it is not an administrative unit**.
- **The official settlement name:** the name used by the census bureau and the county, and **it may appear on no sign at all here**. In the county's own system that name is a **filter value**, not a town hall.
- **What goes on the federal form is the residential address where you live:** street, number and ZIP code. **Do not try to guess the settlement name;** write what your envelope says, but do not assume that city name gives you a city hall.
- **All three forms of moving require notification:** moving here from inside a city's limits, moving from one home to another inside the unincorporated area, and changing streets within the same neighborhood. In the second, no official name changes and even the ZIP code can stay the same; **you have still moved**.
- One thing changed in 2026: account for the federal rule that took effect on **June 29, 2026** and reorganized alien registration and what counts as evidence of registration, readable in the [federalregister.gov](https://www.federalregister.gov) entry.

First week: five providers, three legal regimes

ITEM	PROVIDER	REGIME AND COMPLAINT DOOR
Electricity	Nevada Power Company, doing business as NV Energy	Within the regulator's jurisdiction; complaints to the regulator
Natural gas	Southwest Gas Corporation (separate company, separate bill)	Within the regulator's jurisdiction; complaints to the regulator
Water	Las Vegas Valley Water District	Outside it; complaints to the county commission
Sewer	Clark County Water Reclamation District	Outside it. The responsible party is the property owner from the start; there is no tenant account
Refuse	A franchised private company through the county's franchise services division	Outside it. The ordinance's own language: the property owner is responsible for all charges even if not residing there

And the single most useful sentence in this checklist is this: **there are three separate legal regimes in one household, and you can tell which door to use from the provider's name**. The regulator states on its own page that it does not regulate entities whose names contain **authority**, **district** or **mutual**; the word in the water district's name tells you which door to use. **Electricity and gas are identical to the neighboring cities**, so being unincorporated changes nothing on those two items. **Do not confuse this with the cities in the**

north of the state either: there electricity and gas come from the same company, here they are **two separate companies and two separate bills**. One more detail: the governing board of the water and wastewater districts is the county commission itself, so **the board of the body you are complaining about and the board you take the complaint to are the same**.

TASK	WHERE OR HOW
☐ Make three separate calls	Electricity, gas and water separately, and open each one by asking what do you accept as alternative identification
☐ The number question on the water account	The district states on its own page that resident aliens may be asked for a passport, a state identification number and/or a consular identification card , and international customers for a passport number. Expired passports are not accepted . The district's binding service rules ask only for full name and valid identifying information, but the online form asks for the last four digits of the number. We could not verify whether they will open an account on photo identification alone ; call before you go in person
☐ The number question on electricity and gas	The regulator's own answer: some providers may ask for a number, but many provide an alternative such as a driver license number . The electric provider's privacy statement lists a driver license, a passport and a state ID for identity verification. We could not find whether a taxpayer identification number is accepted
☐ Do not carry a neighboring city's route here	A city in the valley states on its own page that a customer who cannot verify identity by telephone may open an account at city hall with photo identification. That solution is for that city's own customers and has no counterpart here ; your water provider is a different body and publishes no such written route
☐ Know your deposit rights on electricity	The tariff's own sentence: a guarantor may not be required . On a new account the deposit cap is one hundred fifty percent of the estimated average monthly bill calculated on the last twelve months of actual usage at that address. Exemption comes with documentation : recipients of disability payments, social security or retirement payments, active duty military, veterans, and customers who enroll in autopay and keep it . That last one is a rule-based route out for a newcomer with no U.S. credit history. For an elderly customer the cap is halved
☐ The water rule is heavier	A new customer who has not established credit with the district is asked for a deposit, and the amount is at least two and a half times the highest monthly bill in a twelve-month period. Instead of cash, a surety bond acceptable to the district may be offered, and the deposit earns interest . Turn-on charges: regular 10 dollars , same day 15 dollars , after hours and holidays 70 dollars. Plan your moving day around this
☐ Do not open a sewer account	The responsible party is the legal owner of the property from the start; the bill is annual and may be paid in quarterly installments. Service is not shut off for unpaid sewer charges ; the debt with penalties is added to the property tax roll . The enforcement is not at the tap, it is on the title. We publish no amount
☐ On refuse the responsible party is also the owner	Subscription is mandatory for all residences under the county ordinance, and the owner's name appears on every quarterly bill. If you are a tenant you are probably paying it inside the rent; look for who bears this item in your lease. We publish no tariff
☐ Once the bills are in your name you hold two documents	The only two bills that can be issued to a tenant here are water and electric , and those two produce the proof of residency required for a license application and school enrollment

TASK	WHERE OR HOW
☐ Get the library card	The system is the Las Vegas-Clark County Library District and it has two branches in this area. A full card from a branch requires photo identification and current proof of address; a separate card type is reported for people who cannot prove an address , with five items and no term limit in the document we read. A Social Security number appears nowhere in the published card requirements. We hedge heavily here: the system's own site could not be reached at all in this research, so confirm every line by telephone with the branch
☐ Start school enrollment for children	One district countywide. A driver license is not proof of address, photocopies are not accepted for the child's identity document, and three separate options are published by name for families without paperwork. Find the school through the boundary lookup, not your envelope

IRRIGATION DAYS ARE ASSIGNED TO THE ADDRESS, AND SUNDAY IS BANNED IN EVERY SEASON

- **The rule is permanent**, not a temporary drought measure. The seasonal pattern: **one assigned day a week in November, December, January and February; three assigned days in March and April; any day except Sunday in May, June, July and August; three days in September and October.**
- **You do not choose the days.** The district assigns days to each property and notifies the customer; **your neighbor's day may not be your day.** One of the first things to do when you move in is to find out the days assigned to this address.
- **Between May 1 and August 31, sprinkler irrigation between 11 a.m. and 7 p.m. is itself counted as waste.** A household that moves in during June and waters at midday has committed a violation before unpacking.
- **Other things counted as waste:** water **flowing or spraying off the property**; a faulty irrigation device or supply line left unrepaired for **more than forty-eight hours** after you knew of it; washing a vehicle, driveway, sidewalk or street contrary to the rules; draining pool or spa water off the property when a sewer connection is available; cooling misters; and **failing to follow the assigned irrigation group.**
- **There are exemptions, but one thing has none.** A hand-held hose, and **drip and low-volume non-spray irrigation**, are exempt from the day and hour rules; new landscaping gets **up to fourteen days** of extra time. Against that, **water flowing off your property has no exemption whatsoever.** Not for drip, not for a hand-held hose; water running onto the sidewalk is a violation in every case.
- **Run the sprinklers once on day one and watch them**, and if there is an automatic timer check its schedule. A head spraying onto the sidewalk can earn you a penalty for a fault you did not create.

The water waste penalty: tiered, and it looks backward

VIOLATION	AMOUNT ON A TYPICAL RESIDENTIAL METER
First	A warning and time to correct, no charge
Second	80 dollars
Third	160 dollars
Fourth	320 dollars
Fifth	640 dollars

VIOLATION

AMOUNT ON A TYPICAL RESIDENTIAL METER

Sixth and beyond

1,280 dollars

- **Amounts are higher on properties with large meters**, and water theft is an entirely separate and much heavier regime.
- **Which tier you fall into is determined by your violation history over the last eighteen months**, so a violation from a year ago can raise today's penalty.
- **A monetary penalty is not the only sanction**: the district states in its own language that it may **issue a misdemeanor citation**, and water waste is listed **among the grounds for discontinuing service**.
- **There is an appeal route and it is the most important line in this section**: violations and charges may be appealed to an **independent hearing officer**. The appeal must state the date of the notice and be filed within the time allowed. **That sentence is what protects a household still learning the language**; do not throw the notice away, keep the date and the number.

WHO PAYS, TENANT OR OWNER: THERE IS A CHAIN IN THE WATER PENALTY

- **The penalty goes to the account holder**. A tenant whose water account is in their own name pays the penalty themselves.
- **And the chain is built here**: if the tenant does not pay, or **does not resolve ongoing water waste**, the district may require **the owner of record in the county title records** to take over the account and pay past charges, and unpaid amounts are deemed owed by both the customer and the owner and **become a lien on the real property**.
- **So a tenant who ignores a water waste notice pulls the landlord into it**, and that is the kind of thing that ends a tenancy. When a notice arrives, do two things: **fix the fault**, and **notify your landlord in writing**.
- **Who pays what must be written in your lease**. Before you sign, ask four things in writing: the deposit and when the receipt will be given, whether the refuse and sewer charges are inside the rent, **the irrigation days and the automatic timer schedule**, and whether the homeowners association plans an ornamental turf conversion in the common areas. There is a near-term date on that last one.
- **What is verified on tenancy**: the deposit cap cannot exceed **three months rent**, **you have the right to a signed written receipt** and may withhold rent until it is given, no second deposit may be demanded mid-term, and when the tenancy ends the landlord must **within thirty days** either return the balance or provide an **itemized written accounting**. **There is also a prohibition on retaliation**. Details in [the renting section of the state guide](#)

THE SHUTOFF MORATORIUM IS TRIGGERED BY TEMPERATURE, NOT BY THE CALENDAR

- If the national weather service forecasts **105 Fahrenheit or above**, or **15 Fahrenheit or below**, for **any moment in a twenty-four hour period**, a shutoff for nonpayment is **postponed**. **We write these two figures with confidence**, because they are the same in the regulation and in the company's tariff filed with the regulator. **There are no dates at all**: no season, no start and no end day.
- **This is a postponement, not a cancellation**, and it covers only shutoffs **for nonpayment**. The debt does not go away.
- **Lower thresholds for elderly and disabled households appear in the regulation but not in the company's published tariff**. The tariffs are older than the regulation and the two do not match on this point. If someone elderly or disabled lives in your household the threshold **may be lower**; we do not state it as settled, ask your company.
- **The gas exemption is conditional**. The tariff states that the postponement on the hot side does not apply to the gas utility **unless natural gas is essential for cooling** in that home. There is no such exception on the cold trigger. **Do not skip the condition**.
- **Water and refuse sit outside this regime**. The regulator's bulletin describes the extreme weather limit for water too, but the water there means **regulated** water utilities and the district here is not one of them. **We could not verify whether any heat-based protection reaches the water customer here, and we write it in neither direction**.
- **Four protections independent of temperature: ten days written notice** before a shutoff and, if unpaid, **a second notice at least forty-eight hours** beforehand; **no shutoff on the day before a weekend, during a weekend or on a state holiday**; a **thirty day postponement** on a written statement signed by a physician or public health official, extended thirty more days with a renewed document; and on electricity, restoration the same day if payment arrives **by 10 a.m.**, otherwise within **twenty-four hours**. The sections are in [the utilities section of the state guide](#)
- **If you cannot pay during the summer, do not wait**: whether the shutoff is postponed that day depends on the forecast. Call the provider and put your installment request on the record.

Within 30 days

TASK	WHERE OR HOW
☐ Vehicle registration and insurance	Emissions testing is required here , but the coverage is a drawn area rather than the county line. Insurance has no grace period and a single day of lapse can lead to suspension. The hidden cost of delaying registration: the out-of-state plate rate at park gates
☐ Set up the tax side	No state income tax is withheld from your pay and you file no state return . But there is tax; it has moved: you pay 8.375 percent at the register and the property tax burden is real. There is no city tax line at all here , because there is no city. Do not carry this rate to another county
☐ Ask the card question before you start a job	Some jobs require a separate card issued by the police agency and you cannot obtain it before you have the job ; the application form is given and signed by your employer . When you take an offer, ask does this position require a card

TASK	WHERE OR HOW
☐ Register with a sliding-fee health center	Before a problem arises. A sliding-fee center is never a free clinic and you have to ask for the discount by name. We publish no address, hours, telephone number or fee tier ; take them from the center's own site and do not set out without confirming by telephone. Ask directly whether immigration status is asked about , because the association's list says nothing about it
☐ Do not delay the health application	The marketplace belongs to the state itself ; the application and eligibility decision run through a separate division and a portal. Do not conflate the age limits: 21 on the Medicaid side, 19 in the children's health program. You may see the former agency name on letters; an old name does not invalidate a document
☐ Pick the right marriage window	No waiting period and no blood test; the license comes from the county clerk's bureau, which is open seven days a week from 8 a.m. to midnight, including all legal holidays . The fee is 102 dollars and checks are not accepted . The county government center does not issue licenses and says so on its own page; going to the wrong building is the most common mistake in this county
☐ Start early if you need a birth certificate	A child born here counts as a Clark County birth and the certificate comes from the county health district. First copy 38 dollars , each additional copy 25 dollars , turnaround two to four weeks, personal checks are not accepted . The county holds births from 1973 onward ; anything older cannot be obtained here at all
☐ Learn the complaint channel	We found no 311 line here . The channel is called Fix It Clark County and the unit behind it is the county's code enforcement and public response office. The office is open Monday through Thursday and closed Friday, Saturday and Sunday; a problem you find on Friday waits until Monday

AT THE COUNTY ASSISTANCE WINDOW THE PROBLEM IS IDENTIFICATION, NOT THE NUMBER

- **There is no city assistance office to apply to.** Because there is no city here, the contact is directly **Clark County Social Service**. In other cities a reader first asks whether to go to the city or the county; **here that question never arises**.
- **The county's identification requirement:** two identification documents for each member of the household, and for adults one of them must be **an unexpired, Nevada-issued photo ID showing a Clark County address**. If you live here your address already is a Clark County address; **what stops you may be the type of card rather than the address**.
- **And the status-neutral driving card can be a problem here.** The top of the card states, in the agency's own words, **Not Valid for ID. We could not verify from the county's own text whether it accepts this card**, so we say neither that it works nor that it does not; but **think in advance about whether you have a second identification option** before you go to this door.
- **The assistance items we could find** are rent, burial and cremation costs, out-of-state transportation, and home assistance and alternative care programs for residents over 18. **We found no general indigent health program**. The county also asks applicants to have applied first, where eligible, to health coverage, unemployment insurance and other programs.
- **The rule is different in an emergency room:** under federal law a hospital emergency department must examine and stabilize **regardless of ability to pay and regardless of immigration status. But that does not mean the service is free**; do not conflate the two. Do not delay going to a hospital because you fear the bill.
- **Talk to an immigration lawyer before you apply for a public benefit, drop an existing one, or move from one program to another.**

IF YOU BOUGHT A HOME: THE PROPERTY TAX CAP DOES NOT ARRIVE BY ITSELF

- **This is not a city matter but a county matter:** the **Clark County Assessor** values the property and administers the abatement, and the **Clark County Treasurer** bills and collects. In neighboring cities there is a city line inside the bill; **here there is no such line**, though the town counts as its own tax district under state law.
- **The system is a cap, not a discount:** the annual increase is limited to **3 percent** on an owner's primary residence, and up to **8 percent** on homes the owner does not occupy and on land and commercial property. **Only one property statewide may be selected as a primary residence**, and new construction or property that changes use receives no cap in that fiscal year.
- **The county's own warning:** every recorded conveyance document removes the 3 percent abatement; if the document number changes, **a new card** must be completed and returned to keep the cap the following year. Transferring the home into a **trust** is named among those causes. A **refinance** that creates no conveyance document does not affect the abatement.
- **Do not wait if the card does not arrive:** the assessor mails the cards **after July 1** and the card looks like ordinary advertising mail. Watch your mailbox in the months after closing, and if it does not come, call the office and ask whether your property is recorded as a primary residence. **We could not verify which identification or taxpayer identification number the cap claim asks for** and we do not speculate.
- **The 3 percent cap is possible on rentals too:** the assessor mails a rent declaration **in the spring** to owners of residential rentals with more than two units. **We publish no figure because the rent caps change every tax year**, and these caps are not a limit on rent and cannot be read as rent control.

Within 90 days

TASK	WHERE OR HOW
☐ Plan your Türkiye matters	Nevada falls within the consular district of the Consulate General in Los Angeles and there is no Turkish mission in the state. The good news: the Consulate General is in the same time zone . Details in our consulate guide
☐ Start early if you need an apostille	There are four separate doors and sending a document to the wrong one means the package comes back. We publish no fee, turnaround or procedure , because the state authority's sites did not open this round
☐ Voter registration and jury duty	Registration and voting belong to U.S. citizens only ; do not check the citizenship box on any form and do not fill in registration forms handed to you at the door. If a jury summons arrives, call the court named on the letter ; do not throw the summons away. There is no elected local office here ; the local line on your ballot is the county commission line
☐ Ask a lawyer before applying for public benefits	The federal public charge rule that took effect on September 18, 2026 widened the officer's discretion; the same rule says that benefits received before that date are evaluated under the earlier rule . Put two dates in your calendar: September 18, 2026 and January 1, 2027

TASK	WHERE OR HOW
☐ Know what Nevada does differently on health	After October 1, 2026 federally matched full coverage is open to four status groups, but Nevada took up the federal option for lawfully residing children and pregnant people years ago. Lawfully residing is not the same as holding any status ; discuss your own situation with your lawyer
☐ Keep your tax records	Copies of federal returns are often requested in green card and citizenship applications. Because you file no state return in Nevada, the federal record is all you hold

Numbers to know in Enterprise

TOPIC	FIGURE
Local government	No city. The advisory board's five members are appointed for two years ; all official governmental decisions are made by the county commission
Irrigation	Sunday banned in every season · sprinklers banned 11 a.m. to 7 p.m. in summer · days assigned by the district
Water waste penalty	80 · 160 · 320 · 640 · 1,280 dollars · tier set by the last 18 months · no exemption for water flowing off the property
Shutoff moratorium thresholds	105 °F or above or 15 °F or below · a postponement , not a cancellation · water and refuse outside it
Water turn-on charge	Regular 10 dollars · same day 15 dollars · after hours and holidays 70 dollars
Insurance minimum	25,000 / 50,000 / 20,000 dollars · no grace period
Emissions	Once a year · result valid 90 days · new vehicles exempt for the first three registrations · hybrids for the first five model years
Driving credential	Status-neutral card valid 4 years · the card states Not Valid for ID · renewal and address change in person only
Sales tax	8.375 percent in Clark County · the employer-side tax is 1.17 percent statewide
School district	One district countywide · grade placement by age as of August 1
Marriage license	102 dollars · no checks · bureau open 7 days, 8 a.m. to midnight
Birth certificate	First copy 38 dollars , additional copy 25 dollars · 2 to 4 weeks · county records from 1973 onward
Work card	67 dollars from October 1, 2026 , plus 40 dollars for a federal check if required · 5 years · notice within 5 days if the employer changes
Property tax cap	3 percent on a primary residence · up to 8 percent otherwise · the procedure is a mailed card
Complaint office	Open Monday through Thursday · closed Friday, Saturday and Sunday

A WEEKEND PLAN: CHEAP, BUT NOT FREE

- **What is genuinely free: the county parks**, and here the weight of this list sits on them. In the county's own park locator this settlement exists as a **community filter**, and that filter returns **about twenty records**; a playground, a skate park, a dog park, a fitness course, a rose garden and a **splash pad** are among them. **Do not look for a city park, there are none**; the park you visit is a county park and there is no parks department either. The splash pad is **seasonal**, so ask before you go.
- **State park fees look at the plate**: at the two large parks near the valley the charge is **10 dollars per vehicle**, **15 dollars** for a vehicle without Nevada plates. At the state historic park north of the valley the **museum admission is 3 dollars** and children 12 and under are free; the newest park charges **3 dollars per person**. **There is no free pedestrian entry**: those arriving on foot, on horseback or by bicycle pay **2 dollars per person**. Some parks do not take cards. **Discounts are discounts, not free entry**: holders of a disability placard and active duty military and veterans get **one dollar off** daily entry.
- **There is a library park pass, but two per library**. A Nevada library card holder borrows it for a week, it is valid at **all 27 state parks** for a vehicle of up to eight people, and it **also covers museum admission at state parks**. **But we do not say it exists here**: the agency's own release says two passes were provided to each public library and **we could not verify this year's participation by the system that serves this area**. **You have one advantage here**: there is a library branch carrying the town's own name; call the branch and ask. **The pass does not work on federal land**, and county parks charge no entry fee anyway.
- **The most important planning fact about the large federal landscape area to the west**: to enter the scenic drive, **a timed entry reservation is required between October 1 and May 31 for entries between 8 a.m. and 5 p.m.**, and in the agency's own words **a separate reservation is needed for every vehicle**. The reservation is separate from the entrance fee and is required even if you hold a pass. So **the biggest landscape near your home is a place that has to be planned in advance for two thirds of the year**. **We publish no fee**: the agency publishes no figure on any readable page.
- **The federal recreation area around the lake charges**: a private vehicle **25 dollars** covering 1 to 7 days; on foot or by bicycle **15 dollars per person**; an annual pass for the area **45 dollars**. The line for families: in the agency's own words, **no entrance pass is required for children under 16**. The **federal fossil monument north of the valley is free**, but the agency publishes a mailing address and labels it **not to be used for directions; do not put that address into your navigation**.
- **Federal fee-free days**: the two days left in 2026 are **October 27, 2026** and **November 11, 2026**. Other charges such as timed entry can still apply on those days.
- **A heat safety matter, in the agencies' own words**: for the lake area the national park service writes that it cannot be emphasized enough that hiking can be **EXTREMELY DANGEROUS** from late spring to early fall because of extreme heat, and suggests postponing plans to cooler seasons. The same agency says to carry **at least one gallon, that is 4 liters, of drinking water per person per day** and to **drink even when you are not thirsty**, and on the same page states that **there are no lifeguards and no designated swimming beaches**. In the summer monsoon, **flash floods can occur in dry washes**; on the trails to the west the agency's own note says one trail crosses a wash that becomes **impassable after rain**.

THE REAL WARNING HERE FOR A HOUSEHOLD WITH CHILDREN

- **A hotel pool can lawfully be a venue restricted to those over 21.** The regulator's own text defines a class of venue that **prohibits patrons under the age of 21 from entering**, and the same definition lists the dance area as possibly being **a swimming pool or a pool deck**.
- **What that means in practice:** a family that books a hotel on the strength of pool photographs may not be able to take its child into that pool. **Call the hotel before you book** and ask whether the pool has an age limit and whether there is a separate pool at the same property open to children. **For a household living here this question comes up more often than for a tourist:** whoever is putting up a visitor from Türkiye or buying a summer day pass hits the same wall.
- **We put the free alternative right beside it on purpose:** one of the county parks here has a splash pad, and county parks are free and have no age limit.
- **The gambling age is a separate and harder item:** for those under 21 not only playing but **loitering** in gaming areas is prohibited. In practice: a child may pass through a casino floor with a parent on the way from one place to another, but may not stand and wait at the machines or the tables. **We could not read the statutory text**, so we quote nothing and publish no penalty figure.
- **There is also a night curfew rule but we do not publish the hours.** It is reported that a night curfew applies to those under 18 and that the rule is stricter on the hotel corridor; **sources conflict on the hours and on which days apply, and we could not read the county code.** And **there is no city code officer here to enforce it;** the contact is the county police agency.

IF YOU ARE NOT A CITIZEN, REMEMBER

- Do not check the citizenship box on any form and do not register to vote. If a jury summons arrives, do not ignore it; call **the jury office of the court named on the letter**, not a general number.
- Talk to an immigration lawyer before applying for a public benefit, dropping an existing one, or moving from one program to another.
- Check your entry record: i94.cbp.dhs.gov. Your work authorization, some filing eligibilities and part of your card validity in this state depend on it.
- If a green card application is pending, do not travel abroad without advance parole.
- If you are detained, ask to speak with a lawyer before discussing your status, and if you are a Turkish citizen ask that the consulate be notified.

TURKISH-SPEAKING IMMIGRATION ATTORNEY IN ENTERPRISE

Have a question about your immigration status?

Attorney Asim Clinch serves clients in Enterprise and across Clark County, in Turkish and English.

Free evaluation: clinchlaw.com/free-evaluation · +1 866-491-7669
