

CHECKLIST · RENO

Moving to Reno Checklist: The First 90 Days (2026)

What newcomers need to do in order, the deadlines and where each is done. Print it and tick the boxes.

SHORT ANSWER

The first ten days are federal: **if you are subject to address reporting, notify USCIS within 10 days**, and if you have a case in immigration court, notify the court **within 5 days**. **But in this city the second sentence has a tail:** which court you notify does not come off a map, it comes off **the notice you were sent**; we set out why in our official offices directory. The first week is about the city, and here there are **four providers**: electricity and natural gas from **the same company**, water from its own regional authority, sewer from the city and billed **quarterly**, and refuse from a contractor under agreement with the city. **If you are coming from the south of the state, forget the two-bills sentence**, it is wrong here. The same week, do one two-minute job: **look at the last digit of your house number** and write your watering days in your calendar. **There is no watering on Monday here, and Sunday is open to odd-numbered addresses.**

The first 10 days

TASK	WHERE OR HOW
☐ Report your address to USCIS	As a general rule required for most non-citizens including green card holders, within 10 days ; A and G visa holders and visitors under the visa waiver program are excepted. uscis.gov/addresschange
☐ Update the address on every pending case separately	Filing an AR-11 does not by itself change the address on a pending application; enter the receipt number of each one
☐ If you have an immigration court case	Within 5 days using Form EOIR-33/IC: respondentaccess.eoir.justice.gov . Which court you send it to is a separate question in this city ; read your notice
☐ If you have a check-in obligation	Report the address through portal.ice.gov as well; if you hold an appointment document, the address on that document controls
☐ If you hold the status-neutral driving card there is a separate task	That card's address change has to be done in person , so it needs an appointment. The federal notice does not replace it
☐ Do not mistake mail forwarding for a notice	A change of address filed with the post office does not update an agency record, and giving your address to a state, county or city agency does not satisfy the federal obligation

THERE ARE THREE WAYS TO MOVE HERE, AND ALL THREE REQUIRE A NOTICE

- **From the south of the state to here.** A great deal really does change: your police contact splits into two separate bodies, your electricity and gas consolidate into **one company**, your water authority, sewer bill, refuse contractor, school district and library system all change, and even the rate you pay at the register goes down. **But the federal notice is still the same notice.**
- **Moving house inside the city.** No agency changes and your envelope carries the same city name. **You have still moved and you still report within 10 days.**
- **From the city to an unincorporated county address.** The trap runs the other way: the city name on your envelope can stay the same while **your contact shifts from the city to the county**, in policing and licensing too.
- **Renting a post office box is not a solution**, because the agency wants the address where you actually live.
- One thing changed in 2026: take into account the federal rule that took effect on **June 29, 2026** and reworked alien registration and what counts as evidence of registration, readable in the [federalregister.gov](https://www.federalregister.gov) record.

The first week: four providers, three legal regimes

ITEM	PROVIDER	REGIME AND COMPLAINT DOOR
Electricity and natural gas	One company for northern Nevada: Sierra Pacific Power Company d/b/a NV Energy	Inside the regulator's authority; complaints go to the regulator
Water	Truckee Meadows Water Authority	Outside that authority , it sets its own rules; complaints go to the county commission
Sewer	City of Reno, quarterly	Not an account you open, a bill against the property
Refuse	A contractor under agreement with the city	Outside that authority ; the contact is the local business license unit

This is where the most commonly mistransplanted sentence sits: in the south of the state electricity comes from one company and natural gas from another, and two separate bills are paid. **Here there is one contact.** The regulator still lists the tariffs separately, so one company does not collapse two sets of rules into one. And the regulator gives readers **a practical rule:** it does not regulate a body with **authority, district or mutual** in its name. That is the shortest way to find the right door for a problem with a bill in Nevada.

TASK	WHERE OR HOW
☐ Make two calls, not three	One call for electricity and gas, a separate one for water. In both, frame your first question as what do you accept as alternative identification
☐ The number question for electricity and gas	The regulator's own answer: companies set what they require in their tariffs, some may ask for a number, but many provide an alternative such as a driver license number

TASK	WHERE OR HOW
☐ The number question for water	We could not verify the answer. The authority's site could not be reached at all this round; we print no deposit amount, no accepted identification and no answer on whether a number is required. We do not copy the written passport route of the authority in the south, which is another authority's rule. Call the authority
☐ A procedural note on the water account	The authority operates under a rule asking that a new service application be made in person at its business office and that charges be paid at the time of application
☐ Know your deposit rights	For electricity and gas the cap cannot exceed 1.5 times the estimated average monthly bill for the residence; an installment right is mandatory; a refund is mandatory after twelve consecutive on-time payments; for an elderly customer the cap is halved , and no deposit at all may be required of some customers receiving particular benefits
☐ Once the bills are in your name you hold a document	Those documents are the proof of residency asked for in a license application , in school enrollment and for a library card
☐ Find out which side of the line your address sits on	Inside the city limits, or in the unincorporated county. This decides which door you go to for everything from a code complaint to a building permit to policing
☐ Get the library card	The system is Washoe County Library System , separate from the one in the south. A standard card lasts three years; a conditional card is issued to someone whose documents are incomplete , limited to two items at a time and expiring after three months . The address proof list includes vehicle registration and, for people living with an owner without a lease, a notarized affidavit . Heavy hedge: the system's site could not be reached at all this round, so confirm the terms at a branch
☐ Do not expect a provider name for internet	The regulator has no authority over internet and points to the federal communications agency for complaints. We could not verify which company serves which address and we print no provider name; check your address in advance

YOUR WATERING DAY DEPENDS ON YOUR HOUSE NUMBER, AND THE SOUTHERN RULE RUNS BACKWARDS HERE

- **Even-numbered addresses** (0, 2, 4, 6, 8): Tuesday, Thursday, Saturday. **Odd-numbered addresses** (1, 3, 5, 7, 9): Wednesday, Friday, Sunday. **No watering on Monday for anyone.**
- **This is the sharpest inversion in the series:** in the south of the state **outdoor watering is banned on Sundays in every season**, while here Sunday is a **watering day** for odd-numbered addresses. The same act is compliant in one city and a violation in the other. **If you moved up from the south you are carrying the wrong habit:** you either waste your own day or you water on Monday and commit a violation.
- **Hand-held hose watering and drip systems are not subject to the day limits.** During the watering season the authority's crews patrol for water waste **seven days a week.**
- **On the hour window the authority's own two pages conflict, and we do not resolve it.** One page asks that sprinklers be off **between 12.00 and 18.00** in summer; another says that under drought conditions the window is **11.00 to 19.00.** **We could not verify which applies this season; apply the narrower one** and ask the authority for the current window.
- **There is no penalty figure in this guide, and that is a decision rather than a gap.** That the authority patrols and issues penalties is verified, **but the amounts and tiers could not be verified.** **We do not copy the penalty schedule of the water authority in the south:** that schedule comes from another authority's rule set and the authority here does not apply it. Call the authority, ask for the tiers, and ask for the answer in writing.
- **The person on the hook is the account holder.** In a single family home where the account is in the tenant's name the penalty goes to the tenant; in an apartment building where the owner or operator holds the account it goes to them. **And the answer has to be in your lease by law:** the state landlord and tenant statute requires a written lease to set out **how utility bills are divided between the parties.** We read the text this round from a secondary legislation mirror stamped **May 26, 2025;** we leave the section number to the agency's own citation and do not quote the text.
- **Run the sprinklers once on your first day and watch them.** Whatever method you use, **water reaching the pavement or the street** is exactly what the patrols are looking for.

THE TRIGGER FOR THE SHUTOFF BAN IS TEMPERATURE, NOT THE CALENDAR

- If the forecast for any **twenty-four hour period** shows **105 Fahrenheit or above** or **15 Fahrenheit or below**, a shutoff for nonpayment is **postponed**. **We print these two figures with confidence**, because they are identical in the regulation and in the company's tariff filed with the regulator. **The rule expressly covers multi-unit residential complexes too.**
- **This is a postponement, not a cancellation.** The debt stands; only the shutoff is deferred.
- **In this city the cold end of the rule genuinely operates.** In the southern valley 15 Fahrenheit is a theoretical figure; here winter is real, so the protection switches on at both ends of the year.
- **More protective thresholds for elderly and disabled households appear in the regulation but not in the company's published tariff.** If someone **over 62** or a person with a disability lives in your household the threshold **may be more protective**; we do not write it as settled, ask your company.
- **The gas exemption is conditional, and the shared company does not change that.** The tariff writes that the hot-weather postponement does not apply to gas, **where gas is not essential for cooling that residence.**
- **A provision specific to the north:** for a northern Nevada customer whose gas and electricity are on a **single bill**, the arrears threshold that triggers a shutoff is set **higher**.
- **Water and refuse are entirely outside this regime.** Do not defer your water bill because hot or cold weather arrived.
- **Protections independent of temperature: ten days written notice** before a shutoff and a second notice at least **forty-eight hours** beforehand if unpaid; **no shutoff on a weekend, a public holiday or the day before either**; no shutoff where someone in the home depends on a life support device and the company knows; and a **thirty-day postponement** on a written statement signed by a physician, a public health official or an advanced practice nurse, in which case the company must offer **installments of up to ninety days**. The sections are in [the utilities section of our state guide](#).

SEWER AND REFUSE: BOTH STRUCTURALLY DIFFERENT FROM THE SOUTH

- **Sewer is not an account**, it is a bill tied to the property. The city sends it **quarterly: January, April, July and October**. It is **due on receipt**, and if the full amount is not paid by the last day of the quarter a **fifteen percent penalty** applies under the municipal code.
- **The rate is flat:** on the city's own page a single family home pays **190.59 dollars** per quarter from the last quarter of 2026, rising to **199.59 dollars** in the summer of 2027; the multi-unit rate is lower. The increase applies **once a year** and shows up on the July statement.
- **Container service is mandatory for refuse and extra bags are not accepted.** Excess waste needs a **tag issued by the city**, and each household gets **twenty tags a year**, to be used on its own collection day.
- **Each household also gets four free transfer station trips a year.** That is the single most useful item for the bulky things that pile up after a move; **use it in the month you move**.
- **A separate container is provided for recycling;** anyone wanting to change container size is advised to wait at least **one hundred twenty days**, so get the size decision right at the start.
- **Do not carry the southern tariff and billing rhythm here.** That arrangement rests on a flat monthly amount; this one is **a mandatory container plus limited tags**.

Within 30 days

TASK	WHERE OR HOW
☐ Vehicle registration, insurance and emissions	On emissions the ceiling and waiver threshold are lower than in the south and the owner may do the repair . On insurance there is no grace period . The hidden cost of delaying registration: the out-of-state plate rate at park gates
☐ Set up the tax side	No state income tax is withheld from your pay and you file no state return . But there is tax, it has only moved: in this county you pay 8.265 percent at the register. Do not carry this rate from the south ; the rate there is higher and the items inside it are entirely different
☐ Read what is inside the rate once	The largest local item inside the rate here is a ballot measure for school facilities ; alongside it sit flood and public safety, a rail grade project, regional transportation and public roads items. What the locality spends on is readable from inside the rate
☐ Know the tax on employers	1.17 percent statewide. It is not a payroll deduction but a tax your employer pays; it can come up in a salary negotiation
☐ If you will work in the neighboring state, ask a tax adviser	The city is close to the state line. We could not verify this round whether a person working in the neighboring state while living here must file a return there , and we do not invent an answer. If withholding is set up wrong the difference lands in one piece in April
☐ Ask the permit question before you start work	Some jobs need a separate permit issued by law enforcement , and in this county the sheriff's office issues them, separately by job type, by appointment only and with an authorization form signed by the employer . So the order is: job offer first, permit second . The detail is in our official offices directory
☐ Register at a sliding-scale health center	Before a problem arises. A sliding-scale clinic is not a free clinic ; the discount is calculated on household income and family size and you still pay a fee . We print no address, hours, telephone number or fee tier ; take them from the clinic's own site. Ask directly whether immigration status is asked , because the member association's page says nothing about it
☐ Do not delay the health application	The marketplace sits with the state itself , not on the federal site; the application and the eligibility decision run through a separate unit and a portal. Do not merge the age limits: 21 on the Medicaid side, 19 in the children's health program. You may see the old agency name in letters; the name changed in 2025
☐ Pick the marriage counter correctly	In this county the fee is 85 dollars ; there is no waiting period and no blood test ; both of you must be there in person at the same time . Do not carry the southern counter's fee and procedure here . We set out the identification and number questions in our consulate guide
☐ If you need a birth certificate	In this county the registrar is the northern county health authority , the fee is 25 dollars per copy , and the records go back to the late 1800s . The counter is closed over the lunch hour ; people who go without knowing find a closed door
☐ Report a city problem	The city has its own service center, open on weekdays and closed for half an hour at midday every day . But this is not a promise of protection : you can stay anonymous, yet the city's own sentence says what you submit becomes a public record open to public inspection , and if you give your contact details in a business license or code enforcement complaint you can be called as a witness

IF YOU BOUGHT A HOME: THE PROPERTY TAX CAP DOES NOT ARRIVE BY ITSELF

- The cap applied to an owner's **primary residence** is **three percent**. Some rental housing meeting low income rent limits can fall under the same cap.
- **We avoid a copying trap:** the southern county's page prints a higher cap rate for other property, **this county's page does not**. We do not carry that rate here; if you own a home you do not live in, land or commercial property, **ask the assessor's office** for the rate.
- **In this county the procedure is a form, not a card:** a **partial cap claim form** is filed to claim the lower cap **for the first time** in the current fiscal year. **The appeal form is separate**; someone who already filed a claim that year uses a **request for review form**. **Do not carry the southern county's postcard procedure here**.
- **Recording a deed drops the previous cap.** If the previous owner held the discount on the home you bought, it comes off with the transfer and **the form has to be filed to re-establish it in your name**. Newly built property or property whose use has changed **gets no cap at all for that fiscal year**.
- **Two dates:** the assessor's page **gives no deadline** for the claim form, so file early; residential rental declarations are filed every year and must be returned by **June 15**. **That date belongs to this county**.
- **If the property stops being your primary residence you must notify the office.**
- **We could not verify which documents and which identification number the claim asks for, and whether an ITIN suffices stands as an open question.** We do not guess: call the office before you start the form.

IF YOU ARE RENTING, READ THREE CLAUSES BEFORE YOU SIGN

- **The deposit cap**, including last month's rent, cannot exceed **three months of periodic rent**; however the tenancy ends, the landlord must provide an **itemized written accounting** and return the balance **within thirty days**; a late fee cannot exceed **five percent of the periodic rent** and cannot be compounded on an earlier late fee.
- **How utility bills are divided is one of the mandatory subjects of the lease**, and that clause decides who answers for a water waste penalty.
- **There is a retaliation ban and its scope is broad:** complaining in good faith to a public agency about a building, housing or health code violation, organizing or joining a tenants union, taking part in a proceeding about habitability, **complaining in good faith about a fair housing violation**, and being a victim of domestic violence, harassment, sexual assault or stalking are all covered. **A national origin discrimination claim sits inside that scope**.
- **Set your expectations correctly on status:** the state's protected class list does **not** include immigration status or citizenship, and does not include source of income either. **But we could not verify their absence and we do not say there is none**. The complaint body is the state equal rights commission. The detail is in the [renting section of our state guide](#).
- **If you will rent out a unit we print a conflict:** the city's list of activities requiring a license speaks of renting **three or more dwelling units on a single parcel**, while the city's own fee schedule carries a residential rental item for **one to three units**. **The two documents do not match and we take no side**; ask the city business license unit and ask for the answer in writing. What we could verify: the license runs **twelve months, renews annually, and registration with the state business registry is required**.

Within 90 days

TASK	WHERE OR HOW
☐ Plan your Türkiye matters	Nevada is in the consular district of the Consulate General in Los Angeles and there is no Turkish mission in the state. The good news: the Consulate General is in the same time zone , so you do not have to convert its published hours. The detail is in our consulate guide
☐ If you need an apostille, start early	There are four separate doors and sending a document to the wrong one means the package comes back. We print no fee, turnaround or procedure , because the state official's sites did not open this round
☐ Voter registration and jury duty	Registration and voting belong only to U.S. citizens ; do not tick the citizenship box on any form and do not fill in registration forms handed to you door to door. We could not verify which records Nevada builds its jury master list from . If a summons arrives, call the court named on the letter ; more than one court operates in this city
☐ Ask a lawyer before applying for a public benefit	The federal public charge rule effective September 18, 2026 widened the officer's discretion; the same rule says benefits received before that date are assessed under the earlier rule . Put two dates in your calendar: September 18, 2026 and January 1, 2027
☐ Know Nevada's election on health coverage	After October 1, 2026 federally matched full coverage is open to four status groups, but Nevada took the federal option years ago for lawfully residing children and pregnant people , and the federal agency writes this as an obligation on the state. Lawfully residing is not the same thing as holding any status
☐ Ask about the county assistance door yourself	We did not research the northern county's own assistance unit at all this round. We do not say there is no such unit , we say our research did not open that door. We do not carry over the southern county's identification requirement ; but before you go to any assistance counter, think about whether you have a second identification option
☐ Keep your tax records	Copies of federal returns are often requested in green card and citizenship applications. Because you file no state return in Nevada, the federal record is all you have

Numbers to know in Reno

SUBJECT	FIGURE
Number of utility providers	Four · electricity and gas from one company · water from its own regional authority · sewer from the city
Sewer	Quarterly , January, April, July, October · single family home 190.59 dollars , rising to 199.59 dollars in summer 2027 · 15 percent late penalty
Refuse	Mandatory container · no extra bags · 20 tags a year · 4 free transfer station trips a year
Watering	No Monday · even numbers Tuesday, Thursday, Saturday · odd numbers Wednesday, Friday, Sunday · penalty figures could not be verified
Shutoff ban thresholds	105 °F or above or 15 °F or below · postponement , not cancellation · water and refuse outside the regime
Insurance minimum	25,000 / 50,000 / 20,000 dollars · no grace period

SUBJECT	FIGURE
Emissions	Annual · test valid 90 days · ceiling 71.50 dollars gasoline, 74 dollars diesel · waiver threshold 200 dollars · the owner may do the repair
License fees	Status-neutral card 22.50 dollars , 4 years · test 25 dollars , retest 10 dollars · two separate fee conflicts recorded
Transit	Single ride 2.00 dollars · day 3.00 dollars · 7 days 14.50 dollars · 31 days 65.00 dollars · higher education members free
Sales tax	8.265 percent in Washoe County · largest local item inside it is a school facilities ballot measure · tax on employers 1.17 percent
Marriage license	85 dollars · no waiting period and no blood test · both in person · license valid one year
Birth certificate	25 dollars per copy · records from the late 1800s · counter closed over lunch
Library card	Standard card 3 years · conditional card 2 items, 3 months · digital card 1 month
Property tax cap	3 percent on a primary residence · procedure is a claim form , appeal is a separate form · rental declaration June 15
State park entry	Tied to the plate · a vehicle without Nevada plates pays a higher rate at every gate · walk-in entry is charged too

THE WEEKEND PLAN: NONE OF THE SOUTHERN ITEMS TRAVELS HERE

- **We start with what is closed, so you do not go for nothing:** the **museum and store portion of Nevada Historical Society is closed for renovation** and the institution's own site **gives no reopening date**. The same institution's **research library is open**: Wednesday, Thursday and Friday 10.00-16.00, **by appointment only**, plus one Saturday a month, again by appointment. The institution is part of the state museum system, so a reader following the state list can arrive at a closed building.
- **State park fees look at the plate.** At this county's own state park it is **5.00 dollars** per vehicle and **10.00 dollars** for a vehicle without Nevada plates; at the three parks on the lake it is **10.00 and 15.00 dollars**. **There is no free walk-in entry:** anyone arriving on foot, on horseback or by bicycle pays **2 dollars per person**. **Do not arrive without cash:** at least one park does not take cards, and a separate collection charge is published for people who do not leave the fee in the self-pay box.
- **The clearest free door:** the park on the border of two states is the **only park with no fee shown** on the division's own fee list. Check the season and road conditions anyway.
- **There is a reservation window at the park on the lake:** by the division's own sentence, **between April 15 and October 15 a reservation is required to enter by vehicle before 10.30 in the morning**. Arriving at nine on a July morning without one does not work.
- **The city has its own whitewater park, and its own warning:** users **are required to wear a helmet and a life jacket**. That is not our advice, it is the city's own text. The same page says the channels contain **randomly placed boulders**, that the water temperature runs roughly **50 to 70 Fahrenheit** and that it **does not freeze**. **The city does not write that the park is free**, so neither do we.
- **The county's own park system is large:** in the agency's own words **over 12,000 acres**, of which **more than 10,000 acres are open space**, and **49 parks with amenities for every age**. Two splash parks and a visitor center are named inside it. **We could not verify a single entry fee**; we do not say they are free and we do not say they are expensive.
- **We could read two museum prices from the institutions' own pages:** at the art museum general admission is **15.00 dollars**, student and senior **13.00 dollars**, **ages 6 to 14 3.00 dollars**, **5 and under free**; at the discovery museum adults are **17.95 dollars**, ages 6-17 and over 65 **15.95 dollars**, ages 1-5 **13.95 dollars**, **under 1 free**. At the discovery museum, showing one of certain assistance cards gives **5.00 dollars per person** for up to six people; **that is a discount, not free admission**. The art museum **publishes no free admission day**.
- **A library park pass exists, but it is rationed and has to be asked about here separately.** A person with a Nevada public library card borrows it **for one week**, it is valid at **all 27 state parks**, covers **one vehicle with up to eight people**, and includes museum admission inside state parks; it **does not cover camping or boat launching** and **is not valid on federal land**. The division's own bulletin says **two passes per public library**. **We could not verify this system's participation this year and we do not write that it has one**. A conflict is also on record: the division ties the pass to **holding a Nevada public library card**, while the reported terms for this county's system add **a Nevada residency requirement** on top. **We take no side**; call your branch and ask whether it is the card or residency that is required.
- **Federal free entrance days:** the two remaining in 2026 are **October 27, 2026** and **November 11, 2026**. But the nearest large federal item in this region, a national park, **already charges no entrance fee**, and the cave tours inside it **still need tickets on free days**.

THE REAL WARNING FOR A HOUSEHOLD WITH CHILDREN IN THIS STATE

- **A hotel pool can legally be a 21-and-over venue.** The regulator's own text defines a class of venue at a property that **prohibits patrons under 21 from entering**, and the same definition lists the dance area as possibly being **a swimming pool or a pool deck**. **The rule is statewide and this city has casino hotels too.**
- **The practical result:** a family that books a hotel on the strength of the pool photographs may not be able to take their child into that pool. **Call the hotel before you book**, ask whether the pool has an age limit and whether there is a separate pool at the same property open to children. **Ask the same question when you put up a guest.**
- **The gambling age is a separate and harder item:** for anyone under 21 it is not only playing that is prohibited but **loitering** in gaming areas. In practice a child can pass through a floor with a parent on the way from one place to another, but cannot stand and wait at the machines or the tables. **We could not read the statutory text**, so we quote nothing and print no penalty figure.
- **There is a night curfew rule too, but we do not print an hour.** A night curfew for under-18s is reported in this state, **sources conflict on the hour and on which days it applies**, and **we could not read this city's or this county's own ordinances**. Most of the conflicting records describe the county in the south; **carrying those figures here would be wrong twice over.**
- **The seasonal lesson:** on the southern pages the outdoor plan is built around heat alone. **That frame falls short here:** a cold river that does not freeze, mountain passes and the snow tire question are this region's own realities.

IF YOU ARE NOT A CITIZEN, REMEMBER

- Do not tick the citizenship box on any form and do not register to vote. If a jury summons arrives, do not leave it unanswered; call **the jury office of the court named on the letter**, not a general number.
- Talk to an immigration lawyer before applying for a public benefit, dropping one you already receive, or moving from one program to another.
- Check your entry record: i94.cbp.dhs.gov. Your work authorization, some application eligibilities and part of your card validity in this state depend on it.
- If your green card application is pending, do not travel abroad without advance parole.
- If you are detained, ask to speak to a lawyer before saying anything about your status, and if you are a Turkish citizen ask that the consulate be notified.

TURKISH-SPEAKING IMMIGRATION ATTORNEY IN RENO

Have a question about your immigration status?

Attorney Asim Clinch serves clients in Reno and the surrounding area, in Turkish and English. Free evaluation: clinchlaw.com/free-evaluation · +1 866-491-7669

Office: 321 N Central Expy, Ste 206, McKinney, TX 75070

Attorney responsible for this guide: Asim Clinch, Esq., Clinch Law Firm P.C. Attorney Asim Clinch is a member of the Missouri Bar (No. 76084) and practices U.S. federal immigration law.
